

Kainpo

CATALOGUE 2021

Dear retailer / Kainpo partner / co-operational partner,

Kainpo Oy is a Finnish company that has extensively specialized in kick scooter riding and kicksledding. The main focus is to develop dog sport accessories for Kickbike-scooters and Kickspark-sleds. With the help of Kainpo dog sport accessories both have become high-performance equipment for exercising dogs. Keep in mind that the Kainpo accessories are just as good for regular bikes as well.

The main priority in Kainpo product design is to develop dog sport accessories which are safe and easy to use, both for the dog and the owner.

The product development rises from my own training needs and experiences. All the products are suitable for pet owners as well as for active sport users and professional competitors.

The Kainpo dog sport accessories have received positive feedback from all levels of users. Kainpo products are proud to receive commendations also from the world championship Winners.

For retailers we offer Dog leash adapters Universal, Combi PLUS and the new Ultra Swing as well as mushing and walking leashes for these. Kainpo's new leashes feature one and two dog leashes for bikejoring, scootering, sledding, skijoring and canicross. Plus a walking leash for walking your dog beside a bike or a scooter.

Other Kainpo products include Canicross / Skijoring belts and Double break for Kickspark-sled. And of course all the essential spare parts can be purchased from Kainpo.

All the Kainpo dog sport accessories are made in Finland. The quality standard is high, and the products are tested regularly in my own training use.

Read here more about the products, their functions and usages.
Hope you also check the website: www.kainpo.com.

Best regards,
Kainpo Oy

Kai Immonen

Dog leash adapter UNIVERSAL

Product no: 10001

EAN-code: 6430054950008

A hands free dog leash adapter for mushing with 1-2 dogs while riding a bicycle, a Kickbike-scooter or a Kickspark sled.

Guides the rope to keep it clear from the wheels.
Dampens sudden jerks by pulling dog.

Easy, solid and affordable first dog leash adapter.
The best adapter for Kickspark-kicksled.

Popular for dog sport.

Double brake

Product no: 40001

EAN-code: 6430054950022

Double Brake is an effective speed controller for Kickspark sleds. Thanks to the double claws the braking is balanced even on icy Surfaces.

The brake is simple to install. It's curved shape allows natural and free kick movement.

Note! Double brake is suitable only for Kickspark models that have attachment points for the brake.

Increased safety for all sled users.

Popular for dog sports.

Also available spare claws and pedal covers.

Walking leash, with flex and adjustable reach

Product no: 60005

EAN-code: 6430054950329

Kainpo walking leash is designed for walking your dog beside a bike or a scooter. Leash length can be adjusted for dogs of all sizes. Correct length keeps the dog from running in front of the bike. Best used together with Kainpo Combi PLUS adapter. Flex of the leash and adapter give dog safe limits to move.

Hand loop enables walks without the bike when necessary.

Walking leash contains a durable lock, a reflective badge and a fastening hook for the adapter.

Clip the leash always to dog's collar.

One and two dog bike leashes

Bike leashes are made for one or two dogs in wheeled mushing sports: bikejoring and scootering. We test and use the leash ourselves in demanding conditions. There's enough flex for smooth pull without losing energy. Stretch part is at the middle of the rope, so the adapter spring will not wear it out. Also Kainpo neckline is elastic.

Bike leash for one dog (Kickbike or regular bike)

Product no: 60001
EAN-code: 6430054950282

For all wheeled one dog mushing sports.
Stretched length approximately three meters.
Compatible with mushing adapters.
Officially approved for racing.

Bike leash for two dogs (Kickbike or regular bike)

Product no: 60002
EAN-code: 6430054950299

For all wheeled two dog mushing sports.
Stretched length approximately three meters.
Compatible with mushing adapters.
Officially approved for racing.

One and two dog sled leashes

The sled leashes for Kickspark-sled improve control in speed. The Y-shaped leash attaches to the front corners of the sled. In this way it will turn easily to the direction the dog is pulling. The leash is attached with separately sold fasteners that allow easy detaching when not needed. Recommended with Kainpo adapters.

Sled leash, one dog

Product no: 60003
EAN-code: 6430054950305

Stretched length approximately three meters.
Compatible with mushing adapters.
Approved for racing.

Sled leash, two dogs

Product no: 60004
EAN-code: 6430054950312

Stretched length approximately three meters.
Compatible with mushing adapters.
Approved for racing.

Sled leash fasteners

Product no: 50004
EAN-code: 6430054950053

The special sled leash fasteners are installed in the front of the sled. The original front bolts are replaced with them.

With sled leash fasteners the pulling rope is easy to use and take off.

Skijoring leashes

Kainpo leashes made expressly for skijoring. There's enough flex for smooth pull without losing energy. Inelastic section at dog's end helps you take control of the dog e.g. when passing other skiers.

Skijoring leash for one dog

Product no: 80001
EAN-code: 6430054950343

Maximum length ~3 meters.
Officially approved for racing.

Skijoring leash for two dogs

Product no: 80002
EAN-code: 6430054950350

Maximum length ~3 meters.
Officially approved for racing.

Canicross / Skijoring belts

Race belt for canicross and skijoring.

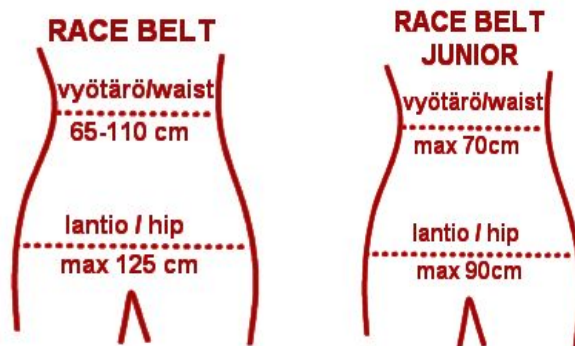

Wide adjustment range.

Specialized cut allows race pace running and skiing movements.

With correctly adjusted belt, the pull force is directed to hips to help you keep good run/ski posture even when tired.

Light buckle is quick and easy to release in relay changes and falls.

Buckle can move 10cm sideways, which ensures belt stays straight even if your dog pulls diagonal.

Race Belt

Product nr: 90005
EAN-code: 6430054950411

Neckline

Neckline guides the dogs close to each other while mushing with two or more dogs.

It also helps them to run and pull in the same direction.

Neckline is fastened to the dogs' collars.

Kainpo neckline is elastic and comfortable for your dogs. Smoother pull reduces risk of injuries.

Choose neckline length to fit your purpose.

Elastic Long Neckline

Product no: 60006

EAN-code: 6430054950336

Long neckline is made for large dogs in two dog pulling or between lead dogs of large teams. It gives dogs more space to move.

Attached to the dogs' collars.

Kainpo neckline is elastic and safe to use.

It has reflective straps in both ends.

Length ~ 50cm - 55cm

Elastic Short Neckline / Tow line neckline, with hooks

Product no:: 60007

EAN-code: 6430054950374

Short neckline is made for medium sized and small dogs in all mushing sports.

It can be used also in large mushing teams between lead dogs or between any team dog and the tow line.

Equipped with detachable hooks.

Length ~ 35cm - 40cm

Elastic Short Neckline / Tow line neckline, without hooks

Product no:: 60008

EAN-code: 6430054950381

Short neckline is also available without hooks.

It's made for large mushing teams that need many necklines and do not always use hooks. Neckline is very light (19 grams) and does not easily tangle with the tow line. Both ends have reflective sections.

Length ~ 30cm - 35cm

Footboard cover (Kickbike)

Product no.: 50001

EAN-code: 6430054950060

The footboard cover makes winter time kicking easier and more comfortable. The cover prevents snow build up on the footboard and so keeps your foot securely on place. It is also comfortable to stand on the footboard cover with spike shoes. The cover is made of strong and durable rubber and both sides can be used.

Easy to install to all Kickbikes that have mounting holes for the cover. Includes assembly screws.

Footboard cover (Kickbike, wide footboards)

Product no.: 50002

EAN-code: 6430054950091

Winter use footboard cover for Kickbike models FAT MAX, eCruise and Cruise MAX that have a 6 inch wide footboard.

Braking pedal covers for the Double brake

Product no: 54006

EAN-code: 6430054950077

The braking pedal covers are designed to improve ease and comfort of braking. When using shoes with spikes the pedal covers prevent the foot slipping when braking. Covers are made of strong and durable rubber and both sides can be used.

Easy to install to all Double brakes. (Kainpo, Esla)
Includes assembly screws.

Front bumper cover for Kickspark

Product no: 50003

EAN-code: 6430054950107

The front bumper cover protects the dog in collisions with sled or in case the dog tries to bite the bumper. The cover has reactive badges and velcro closure for easy install. Cover is durable synthetic leather.
